

SAFETY DATA SHEET

1. Identification

Product identifier	LPS® Belt Dressing					
Other means of identification						
Part Number	02216, C02216					
Recommended use	A non-chlorinated, non-drying, water resistant belts by improving traction and allowing runs u	spray dressing for extending the life of rubber drive under reduced belt tension.				
Recommended restrictions	None known.					
Manufacturer/Importer/Supplier/	Distributor information					
Manufacturer						
Company name	ITW Pro Brands					
Address	4647 Hugh Howell Rd.					
	Tucker, GA 30084					
Country	(U.S.A.)					
	Tel: +1 770-243-8800					
In Case of Emergency	1-800-424-9300					
	1-703-527-3887					
Website	www.lpslabs.com					
E-mail	lpssds@itwprobrands.com					
Supplier	ITW Permatex Canada 1-35 Brownridge Road Halton Hills, ON, L7G 0C6 Canada 1-800-241-8334					
2. Hazard(s) identification						
Physical hazards	Flammable aerosols	Category 1				
	Gases under pressure	Liquefied gas				
Health hazards	Skin corrosion/irritation	Category 2				
	Specific target organ toxicity, single exposure	Category 3 narcotic effects				
Environmental hazards	Not classified.					
Label elements						
Signal word	Danger					
Hazard statement	Extremely flammable aerosol. Contains gas un irritation. May cause drowsiness or dizziness.	nder pressure; may explode if heated. Causes skin				
Precautionary statement						
Prevention	Do not spray on an open flame or other ignitio	ben flames and other ignition sources. No smoking. n source. Do not pierce or burn, even after use. andling. Use only outdoors or in a well-ventilated				
Response		irritation occurs: Get medical advice/attention. fore reuse. IF INHALED: Remove person to fresh POISON CENTER/doctor if you feel unwell.				
Storage	Store in a well-ventilated place. Keep container sunlight. Do not expose to temperatures exceed					
Disposal	Dispose of contents/container in accordance w	vith local/regional/national/international regulations.				
	· · ·					

None known.

Other hazards

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
Heptane		142-82-5	40 - 50
Petroleum Gases, Liquefied, Sweetened		68476-86-8	40 - 50
Polybutene (Isobutylene/butene copolymer)		9003-29-6	1 - 10

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.
Skin contact	Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Not likely, due to the form of the product. In the unlikely event of swallowing contact a physician or poison control center. Rinse mouth.
Most important symptoms/effects, acute and delayed	May cause drowsiness and dizziness. Headache. Nausea, vomiting. Skin irritation. May cause redness and pain.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Contents under pressure. Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
Fire fighting equipment/instructions	In case of fire: Stop leak if safe to do so. Do not move cargo or vehicle if cargo has been exposed to heat. Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. In the event of fire and/or explosion do not breathe fumes.
General fire hazards	Extremely flammable aerosol. Contents under pressure. Pressurized container may explode when exposed to heat or flame.
6. Accidental release meas	sures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of Personal precautions, protective equipment and emergency procedures

low areas. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Wear appropriate protective equipment and clothing during clean-up. Avoid breathing gas. Emergency personnel need self-contained breathing equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Isolate area until gas has dispersed. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Prevent entry into waterways, sewer, basements or confined areas. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Do not re-use empty containers. Avoid breathing gas. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Store in a well-ventilated place. Stored containers should be periodically checked for general condition and leakage. Store away from incompatible materials (see Section 10 of the SDS).
8. Exposure controls/perse	onal protection

Occupational exposure limits

ιι	u	pa	uu	, , ,	a		Ξ,	۸h	U	3	u	l e	7	 	 ιε		
		~		_	~	••											

Components	Туре	Value

ogical limit values	biological exposure limits noted	for the ingredient(s)	

Biological limit values

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.
Individual protection measures,	such as personal protective equipment
Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin protection	
Hand protection	Wear appropriate chemical resistant gloves.
Other	Wear appropriate chemical resistant clothing.
Respiratory protection	If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge or an air-supplied respirator.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance	
Physical state	Gas.
Form	Aerosol.
Color	Clear. Colorless.
Odor	Hydrocarbon-like.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	195.8 °F (91 °C) (concentrate)
Flash point	19.4 °F (-7.0 °C) Tag Closed Cup
Evaporation rate	> 1 BuAc
Flammability (solid, gas)	Flammable gas.
Upper/lower flammability or exp	
Flammability limit - lower (%)	0.6 % estimated
Flammability limit - upper (%)	7 % estimated
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	0 %
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Density	5.74 lbs/gal
Explosive properties	Not explosive.
Heat of combustion	> 30 kJ/g
Oxidizing properties	Not oxidizing.

Percent volatile	90 %
Specific gravity	0.67 - 0.69 @ 20 °C
VOC	90 % per U.S. State and Federal Consumer Product Regulations

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Heat. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	Carbon oxides.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause drowsiness and dizziness. Headache. Nausea, vomiting. Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation.
Eye contact	Direct contact with eyes may cause temporary irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	May cause drowsiness and dizziness. Headache. Nausea, vomiting. Skin irritation. May cause redness and pain.

Information on toxicological effects

Acute toxicity	Narcotic effects.		
Components	Species Test Results		
Heptane (CAS 142-82-5)			
<u>Acute</u>

Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irrita	tion.	
	_		
Respiratory or skin sensitization			
Respiratory sensitization Skin sensitization	Not a respiratory sensitizer.		
	This product is not expected to cause skin sensitization.		
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity	This product is not considered to be a carcinogen b	y IARC, ACGIH, NTP, or OSHA.	
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.		

Specific target organ toxicity - single exposure	May cause dr	owsiness and dizziness.		
Specific target organ toxicity - repeated exposure	Not classified.			
Aspiration hazard	Not likely, due	Not likely, due to the form of the product.		
Chronic effects	Prolonged inh	nalation may be harmful.		
Further information	None known.	2		
12. Ecological information				
Ecotoxicity		t large or frequent spills can have a	hazardous. However, this does not exclude the a harmful or damaging effect on the environment.
